Quality of Bloom
Quality of Variety

FOREWORD. I again take this opportunity of thanking all of my patrons for the generous share of business given me and the kind words of appreciation have not gone to unmindful ears. To merit this confidence and satisfaction is my endeavor. To all whom I have not had the opportunity to serve, I solicit a "show me" attitude with their gladiolus wants even though they do not happen to be from Missouri. The gladiolus is still the supreme summer and fall cut flower. The only cloud in the horizon is the over production of new varieties, many of them without merit. Even the high prices will not scare us if they have merit and are improvements over existing varieties. However, an indiscriminate introduction of new varieties will "kill the goose that lays the golden egg." It is my intention in future price lists to say more about the faults of many varieties rather than only their good points. Tastes differ to be sure, but it takes only a "half an eye" sometimes to tell whether a new variety is worth while. I am glad to say that many of last years introductions are worth while.

TERMS. Cash with order, delivery prepaid. No substitution of varieties. Extra count. No orders taken for bulblets after April 1st. Orders filled in the same rotation as received. The early orders get the choice of bulbs.

DISCOUNTS. On orders of \$10.00 and up to \$50.00 you may select an additional 20% of the amount of your order (your selection of varieties from the "General" list). On orders over \$50.00 write for special quotations for entire lot.

COMING. Seedlings of my own! I can see some of you shake your head and say, "Their number will soon be Legion," but until you have tried one or two, don't say a word and look for something real fine.

PRONUNCIATION OF GLADIOLUS. The American Gladiolus Society went on record as favoring the pronunciation—glad-i-ō-lus and using the one form for both singular and plural. *Do thou likewise.*

WARRANTY. I exercise great care to have everything true to name and believe everything listed here to be 100% true, however, should stock prove untrue or otherwise unsatisfactory, my liability to cease upon free replacement or refund of purchase price, but, I won't be satisfied until you are.
